ORGANISATION FOR ECONOMIC CO-OPERATION AND DEVELOPMENT
ORGANISATION DE COOPÉRATION ET DE DÉVELOPPEMENT ÉCONOMIQUES

introduction

This booklet of Series B of the O.E.C.D. Foreign Trade Bulletins summarises the pattern of trade by commodity categories and areas for four countries for which information became available for the period covered. Similar information for all other O.E.C.D. Member countries and Yugoslavia will be provided in a further four booklets. A sixth booklet will show the pattern of trade for groups of O.E.C.D. Member countries.

For each individual country, the following tables are given:

1. Trade by S.I.T.C. Sections and by main areas of origin/destination;
2. Trade by S.I.T.C. Divisions and by main areas of origin/destination;
3. Trade by S.I.T.C. Groups and by main areas of origin/destination;
4. Trade by 37 selected S.I.T.C. Sub-groups and by main areas of origin/destination;
5. Trade by 36 selected S.I.T.C. classes for additional countries and areas of origin/destination;
6. Volume indices by commodity categories.

Tables 4 and 5 will be published for the majority of member countries.

Except as noted in the remarks on individual countries, the following definitions apply throughout this series:

i) Reporting countries and areas are defined in the same way as countries and areas of origin/consumption (see p. 4).

ii) Values are expressed in million United States dollars and relate to declared transaction values (imports c.i.f., exports f.o.b.)

iii) Data relate to special trade, as defined by the Economic and Social Council and the Statistical Commission of the United Nations.

iv) They cover "all goods which add to, or subtract from the resources of a country as a result of their movement into or out of the country", * which implies in particular that:

- State trading, commercial transactions in military equipment and supplies, foreign aid transactions, improvement and repair trade, transactions in new ships and aircraft, electric energy and gas, sea products landed direct from the high seas are included in the statistics;

- Direct transit trade, temporary imports and exports, transactions in second-hand ships and aircraft, stores and bunkers for ships and aircraft, monetary items and industrial gold (if the metal content accounts for 80 per cent or more of the total value) are excluded from the statistics. Minor transactions may also be excluded.

v) The geographical classification is given by countries and areas of origin/consumption (last known destination) defined as of 1st January 1966. The composition of areas of origin and destination is shown hereunder with reference to the O.E.C.D. Geographical Nomenclature (see the Appendix to this booklet).

From January-March 1964 onwards a new geographical classification is introduced into Series B.

The main feature of this new classification, which approximates much more closely to that used by the United Nations and the I.M.F., is the separation of countries according to their state of economic development. The definition of "developing countries" conforms to that used by the O.E.C.D. Development Assistance Committee, and by the I.M.F. in statistics of aid to countries in the course of development and for balance of payments statistics. The total for the three member countries of O.E.C.D. classified as "developing", (Greece, Spain and Turkey) is therefore shown separately : the total for O.E.C.D. Europe includes these countries, as well as Ireland, Iceland and the countries in E.E.C. and E.F.T.A. The total for non O.E.C.D. developing countries includes developing countries in Europe and in Oceania which are not published separately.

vi) Commodities and commodity categories are defined and classified according to the "Standard International Trade Classification" (S.I.T.C., Revised). ** Owing to lack of space, however, it has been necessary to abbreviate some of the descriptions.

* Statistical Commission of the United Nations. Report of the Seventh Session (2 to 13 February 1953).

introduction

Le présent fascicule de la Série B des Bulletins du commerce extérieur de l'O.C.D.E. résume la structure des échanges - par catégories de produits et par zones - de quatre pays dont les chiffres ont été fournis à l'O.C.D.E. pour la période de référence. Les données correspondantes pour tous les pays Membres de l'O.C.D.E. et de la Yougoslavie seront publiées dans les quatre prochains fascicules. Un sixième fascicule portera sur la structure des échanges de groupes de pays Membres de l'O.C.D.E.

Pour chaque pays, la présente série comporte les tableaux suivants :

1. Commerce par Sections C.T.C.I. et par zones principales d'origine et de destination;
2. Commerce par Divisions C.T.C.I. et par zones principales d'origine et de destination;
3. Commerce par Groupes C.T.C.I. et par zones principales d'origine et de destination;
4. Commerce par 37 Sous-groupes choisis de la C.T.C.I. et par zones principales d'origine et de destination.
5. Commerce par 36 classes de marchandises de la C.T.C.I. par pays et zones supplémentaires d'origine/destination.
6. Indices de volume par catégories de produits.

Les tableaux 4 et 5 seront publiés pour la plupart des pays membres de l'O.C.D.E.

Sous réserve des exceptions indiquées dans les observations relatives à chaque pays, les définitions suivantes s'appliquent à l'ensemble de la série :

i) Les pays et zones déclarants sont définis de la même façon que les pays et zones d'origine/consommation (cf. page 4).

ii) Les valeurs sont exprimées en millions de dollars des Etats-Unis, sur la base des valeurs de transaction déclarées (importations c.a.f., exportations f.o.b.).

iii) Les chiffres concernent le commerce spécial, tel qu'il est défini par le Conseil Economique et Social et la Commission Statistique des Nations Unies.

iv) Sont couverts "tous les biens qui, du fait de leur entrée ou de leur sortie, s'ajoutent aux ressources d'un pays ou les diminuent"*. Il en résulte notamment les inclusions et les exclusions suivantes :

- Sont inclus dans la statistique le commerce d'Etat, les transactions commerciales portant sur l'équipement et l'approvisionnement des forces armées, l'aide extérieure, le commerce de perfectionnement et de réparation, les transactions portant sur les navires et aéronefs neufs, l'énergie électrique et le gaz, les produits de la mer débarqués en provenance directe de la haute mer;
- Sont exclus de la statistique le trafic de transit direct, les importations et exportations temporaires, les transactions portant sur les navires et aéronefs usagés, l'avitaillement et les soutages pour navires et aéronefs, les monnaies métalliques ou fiduciaires et les matières d'or où le métal représente plus de 80% de la valeur totale. Les transactions de faible importance peuvent également être exclues.

v) La ventilation géographique est établie par pays d'origine/consommation (dernière destination connue), suivant les définitions territoriales en vigueur au 1er janvier 1966. La composition des zones d'origine et de destination est indiquée ci-après par référence à la nomenclature géographique de l'O.C.D.E. (cf.l'Appendice au présent fascicule).

A partir de janvier-mars 1964, une nouvelle ventilation géographique est introduite dans la Série B.

L'élément caractéristique de cette nouvelle ventilation, qui se rapproche de celle employée par les Nations-Unies et le F.M.I., est la séparation des pays suivant le critère de leur développement économique. La définition "Pays en voie de développement" est conforme à la définition adoptée par le Comité d'Aide au Développement de l'O.C.D.E. et par le F.M.I., pour les statistiques concernant l'aide aux pays en voie de développement ainsi que pour les statistiques des balances des paiements. Le total des trois pays Membres de l'O.C.D.E. classifiés comme pays en voie de développement (la Grèce, l'Espagne et la Turquie) est publié séparément : le total publié pour l'O.C.D.E./Europe comprend ces pays ainsi que l'Irlande, l'Islande et les pays du C.E.E. et de l'E.F.T.A. Le total publié pour les pays non-membres de l'O.C.D.E. en voie de développement comprend les pays en voie de développement en Europe et en Océanie, non publiés séparément.

vi) Les produits et catégories de produits sont définis et classés selon la "Classification Type pour le Commerce International" (C.T.C.I. Révisée)**. Toutefois, le manque de place a obligé à abréger certaines désignations.

* Commission Statistique des Nations Unies. Rapport sur la Septième Session (2-13 février 1953).

Europe

The data in this volume are the sum of the data previously published for individual reporting countries; it should be noted that:

a) for some countries, secret origins or destinations included as "Unspecified" at sub-group, group and possibly at division level also, are given a full geographical break down at a higher level in the structure of the S.I.T.C. Revised.

For details, see remarks to individual reporting countries.

Les données publiées dans ce volume sont la somme des données publiées pour les pays déclarants; il convient de remarquer que :

a) pour quelques pays, les origines ou destinations secrètes publiées sous "Non spécifiées" au niveau du sous-groupe, du groupe ou même au niveau de la division, sont données avec une ventilation géographique complète à un niveau plus élevé dans la structure de la C.I.T.I. Revisée.

Pour les détails, voir les observations dans les fascicules des pays déclarants.
